Opening Hours: Monday to Friday from 10:00 am to 2:00 pm and from 3:00 pm to 7:00 pm

CATÁLOGO BÁSICO Y ACCESORIOS 2026

AMAZING BODY JEWELRY les saluda y les presenta, un año más, el nuevo Catálogo Básico y de Accesorios 2026, donde podrán encontrar una amplia gama de novedades en el mundo del piercing. Nuestro catálogo reúne piezas clásicas y novedades de gran calidad al mejor precio, con un amplio surtido de nuevas referencias para todo tipo de piercing y una gran variedad de piezas con rosca interna en grosores de 0.8 mm y 1.2 mm.

Trabajamos con materiales de alta calidad, como:

- Titanio grado implante 6Al-4V ELI ASTM-F136
- Cobalto (CoCr NF) Nickel Free
- Oro de 18K (750 Gold)
- Platino PT950
- Bioplast
- Además de una selección de piezas en acero quirúrgico 316L

Las piezas están disponibles en rosca externa, rosca interna (Threaded) y Push-Pin (Threadless – TL). Asimismo, el catálogo incluye un amplio surtido de material sanitario y herramientas para piercing.

COLECCIÓN FINE BODY JEWELRY – ORO Y PLATINO

Para nuestras piezas exclusivas de alta calidad en Oro de 18K (750 Gold), hemos creado un suplemento especial de catálogo, donde encontrarán toda la colección fabricada en oro de 18 quilates y platino.

Este suplemento puede visualizarse en nuestra página web www.abj99.com, en la sección Catálogos – Fine Body Jewelry, o bien solicitarse en formato impreso que enviaremos junto con sus pedidos.
Debido a la constante revalorización del oro en los últimos años, no disponemos de una tarifa de precios fija para estas piezas. Los precios se actualizan semanalmente según la cotización del mercado.

Los presupuestos de piezas en oro tendrán una validez de 15 días a partir de la fecha de emisión.
Las piezas de oro se fabrican bajo pedido y requieren el abono de una señal por adelantado.

Una vez que el pedido haya entrado en producción, no podrá ser cancelado.
Antes de iniciar la fabricación, se enviará un presupuesto detallado, y el proceso comenzará únicamente tras la confirmación expresa del cliente.
El plazo de fabricación oscila entre 2 y 6 semanas, aunque algunas piezas pueden encontrarse disponibles en stock.

BASIC & ACCESSORIES CATALOGUE 2026

AMAZING BODY JEWELRY is pleased to present the new 2026 Basic & Accessories Catalogue. Our 2026 collection brings together classic designs and high-quality new arrivals at competitive prices, with an extensive selection of internally threaded jewelry in 0.8 mm and 1.2 mm gauges.

We work with high-quality materials, including:

- Implant-grade Titanium 6Al-4V ELI ASTM-F136
- Cobalt (CoCr NF) Nickel Free
- 18K Gold (750 Gold)
- Platinium PT950
- Bioplast
- Surgical Steel 316L

Jewelry is available with external threading, internal threading (Threaded), and Push-Pin (Threadless – TL) systems. The catalogue also includes a wide range of piercing tools and sanitary supplies.

FINE BODY JEWELRY COLLECTION – GOLD & PLATINUM

For our exclusive high-quality 18K Gold (750 Gold) pieces, we have created a special catalogue supplement showcasing the full collection crafted in 18K gold and platinum.

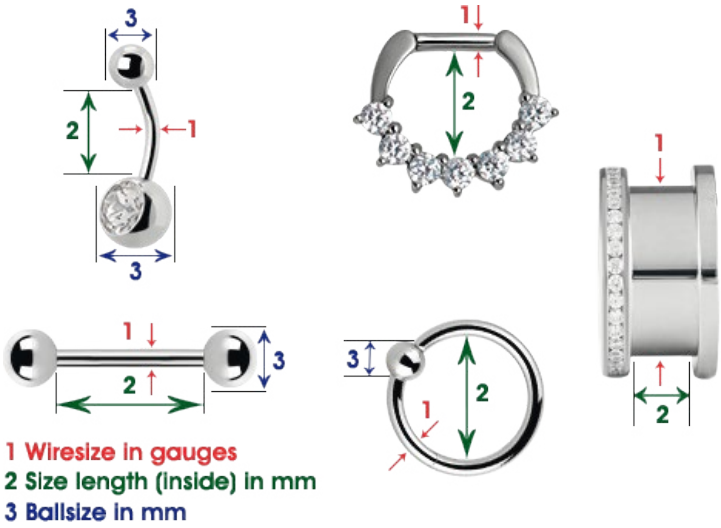
This supplement can be viewed on our website www.abj99.com, in the Catalogues – Fine Body Jewelry section, or requested in printed format, which will be sent together with your orders
Due to market fluctuations, we do not offer a fixed price list for these pieces. Prices are updated weekly according to the metal market rate.

Gold jewelry quotations are valid for 15 days.
All gold pieces are made to order; a deposit payment is required.

Once an order has entered production, it cannot be cancelled
Before manufacturing begins, a detailed quotation will be sent, and production will start only after express customer confirmation.
Production lead times range from 2 to 6 weeks (subject to stock availability).

PRODUCT INFORMATION

To help you understand our product sizing accurately, we use both the Metric and Imperial measurement system.
Metric is in millimeters (mm)
Imperial is in gauges (ga) and inches (")
For your convenience, we provide all our piercing specifications in both systems throughout our product catalog online and printed. Please refer to our conversion chart shown for easy reference.



Gauges	Metric
22ga -	0.6mm
20ga -	0.8mm
18ga -	1.0mm
16ga -	1.2mm
14ga -	1.6mm
12ga -	2.0mm
10ga -	2.5mm
8ga -	3.2mm
6ga -	4.0mm
4ga -	5.0mm
2ga -	6.0mm
0ga -	8.0mm
00ga -	10.0mm

PIERCING SIZES

Piercings are measured by thickness, diameter and width.
Piercing Rings are measured by the internal diameter.
Septum Clickers are measured by the pin thickness and the internal height.
Straight and curved barbells are measured by the linear width between ball to ball.

1. Wire size is indicated in ga or mm (please refer to red markings)
It refers to the diameter size of the stem (thickness of the wire). We indicate this size in gauge and millimeter. For example; 14GA (1.6MM)
2. Size (length) is indicated only in mm (please refer to green markings)
3. Balls or spikes and all other attachments are indicated only in mm (please refer to blue markings)

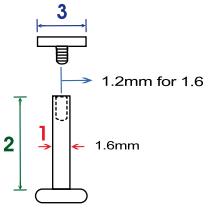
GENERAL GUIDELINES

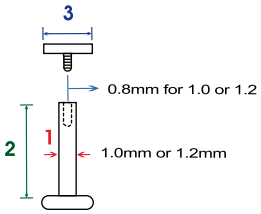
Ear stud pins and hoops are standard in 0.8 mm
Nose piercings come in 0.8 or 1.0 mm
Eyebrow piercings are standard in 1.2 mm
Labrets are most common in 1.2mm but 1.0 and 1.6mm are also available.
We produce Threadless (TL) Labrets in 0.8mm as well.
Septum, Conch, Rook and Daith Piercings are most common in 1.2 mm.
For Industrial barbell, Nipple, Tongue and Navel piercings 1.6mm is the norm for the majority of Piercers.

INTERNALLY THREADED

All our internally threaded items use the specification shown below.

Wire/Stem Size	Internal Thread
1.6 mm	1.2 mm
1.2 mm	0.8 mm
1.0 mm	0.8 mm





Please Note :
0.8 mm is the standard for most European suppliers but some USA suppliers mayprefer 0.9 mm as their standard.
If you are not sure, please check with your supplier or with us.

THREADLESS (TL)

Our Threadless posts have a 0.5mm hole to hold the slightly thinner and pre
bended Threadless Attachment pins firmly in place.
This enables us to offer Labrets, Micro Barbells, Barbells, Nose pins and others from the size of 0.8mm on.
This sizes are mostly used in the Piercing Industry.

SURGICAL STEEL 316L
SS316L is a surgical implant grade, which is the most used material for Body Jewelry.
Due to the EU Nickel Directive introduced in Europe in 2001, steel is only recommened for healed piercings.

CHIRURGENSTAHL 316L
SS316L ist ein rostfreier Chirurgenstahl, welcher das meistverbreitete Material bei Piercings ist.
Wegen den Nickelrichtlinien, ist Stahl nur für verheilte Piercings zu empfenlen.

ACIER CHIRURGICAL 316L
L'acier chirurgical (SS316L) est le matériel le plus fréquemment utilisé pour les piercings.
Du à la directive Européenne introduite en Europe en 2001, l'acier chirurgical n'est recommandé que pour l'utilisation des piercings cicatrisés.

ACERO QUIRURGUICO 316L
SS316L Es un implante de gradoquirúrgico, el cual, es el mas usado para material de Body piercing.
Debido a la Normativa EU de Níquel introducida en Europa en el 2001, el acero esta recomendado solo para piercings curados.

24K real Gold is coated using a PVD (Physical Vapor Deposition) process.
The jewelry is coated in a heated chamber under high vacuum.
Electric voltage applied will form a plasma in the chamber and the introduction of various gases produces an ion bombardment.
This bombardment atomizes the cathode material (24k real Gold) into tiny substances which are deposited on the jewelry.
The result is a hardened layer, which is biocompatible. It can be autoclaved.

Ist eine 24 karat Gold Beschichtung unter Verwendungeines PVD (Physical Vapor Deposition) Prozesses.
Der Schmuck wird in einer erhitzten Kammer im Hochvakuum beschichtet. Elektrische Spannung hilft ein Plasma in der Kammer zu bilden, und die Einführung von verschiedenen Gasen erzeugt einen Ionenbeschuss. Dieses Bombardement zerstäubt das Kathodenmaterial (24 karat Echtgold) in winzige Substanzen, die auf dem Schmuck abgelegt werden.Das Ergebnis ist eine gehärtete Schicht, die biokompatibel ist.
Es kann autoklaviert werden.

Le placage de l'Or 24K se fait à l'aide d'un processus nommé PVD (Physical Vapor Deposition).
Les bijoux sont placés dans une chambre chauffée sous vide. La tension électrique appliquée va former un plasma dans la chambre et l'introduction de différents gaz produit un bombardement ionique. Ce bombardement atomise le matériau de cathode (or 24 carats réel) en substances minuscules qui sont déposés sur les bijoux. Le résultat est une couche durcie, qui est biocompatible et peut être stérilisé en autoclave.

El oro de 24k se recubre con un proceso, el PVD (Deposición Fisica del Vapor).
la joyería se cubre con diversos gases que producen una concentración de iones que se depositan en la joyería.
El resultado es una capa endurecida que recubre las piezas y es biocompatible. Apto para esterilizar en autocable.

NICKEL FREE COBALT CHROMIUM ALLOY (CoCr NF)

Cobalt Chromium Alloys possess high corrosion resistance and amazing strength. It is very hard to break, bend, deform or even scratch. At the same time, it has appealing white color and shine that resembles precious metals like white gold or platinum.
It is widely used in the dental industry and for medical implants like knee and hip joints.
The alloy we use is Nickel Free with a smooth and shiny surface. The price is higher then Surgical Steel but lower then Titanium.
Our Nickel Free Gold PVD items are coated with 18K Real Gold, safe for autoclaving, ensuring hygiene and longevity for our piercing jewelry.

NICKELFREIE KOBALT CHROM LEGIERUNG (CoCr NF)

Kobalt Chrom Legierungen besitzen eine hohe Korrosionsbeständigkeit und eine erstaunliche Festigkeit. Es ist sehr schwer zu zerbrechen, verbiegen, verformen oder zerkratzen. Gleichzeitig hat es eine attraktive weiße Farbe und Glanz, der Edelmetallen wie Weißgold oder Platin ähnelt.
Es wird in der Dentalindustrie und für medizinische Implantate wie Knie und Hüftgelenke weitgehend verwendet.
Die von uns verwendete Legierung ist nickelfrei mit einer sehr glatten und glänzenden Oberfläche. Der Preis ist etwas höher als Chirurgenstahl, aber niedriger als Titan
Unsere nickel-freien Gold-PVD-Artikel sind mit echtem 18 Karat Gold beschichtet, sicher für die Autoklavierung, was Hygiene und Langlebigkeit für unseren Piercingschmuck gewährleistet..

ALLIAGE DE CHROME ET DE COBALT SANS NICKEL (CoCr NF)

Les alliages de cobalt et de chrome possèdent une résistance élevée à la corrosion et une résistance incroyable. Il est très difficile à casser, plier, déformer ou même rayer. En même temps, il a une couleur et un éclat blanc attrayant qui ressemble à des métaux précieux comme l'or blanc ou le platine.
Il est largement utilisé dans l'industrie dentaire ainsi que pour les implants médicaux comme les articulations du genou et de la hanche.
L'alliage que nous utilisons est sans nickel avec une surface lisse et brillante. Le prix est plus élevé que l'acier chirurgical mais inférieur au titane.
Nos articles en PVD doré sans nickel sont revêtus d'or véritable 18 carats, sûrs pour l'autoclave, garantissant hygiène et longévité pour nos bijoux de piercing.

ALEACIÓN DE CROMO COBALTO LIBRE DE NÍQUEL (CoCr NF)

Las aleaciones de cromo cobalto poseen una alta resistencia a la corrosión y una resistencia sorprendente. Es muy difícil romper, doblar, deformar o incluso rayar. Al mismo tiempo, tiene un atractivo color blanco y brillo que se asemeja a los metales preciosos como el oro blanco o el platino.
Es ampliamente utilizado en la industria dental y para implantes médicos como articulaciones de rodilla y cadera.
La aleación que utilizamos es libre de níquel con una superficie lisa y brillante. El precio es más elevado que el acero quirúrgico pero inferior al titanio
Nuestros artículos de PVD dorado sin níquel están recubiertos con oro real de 18 quilates, seguros para autoclave, garantizando higiene y longevidad para nuestra joyería para piercings..

DIS-161

DISPLAY FOR EAR HOOPS 16 PAIRS (SOLD EMPTY)
13x18cm

TITANIUM 6AL-4V-ELI

Titanium is ideal for both initial body piercings and healed piercings as it is compliant with the EU Nickel Directive introduced in Europe in 2001. Because of its virtually 'Nickel Free' content Titanium has become one of the preferred materials used in piercing jewelry. Grade Ti6AL-4V, ASTM F136 is the specification for the alloy to be used for surgical implants. Titanium is only half the weight of steel and twice as strong.

Our Titanium Gold PVD items are coated with 18K Real Gold, safe for autoclaving, ensuring hygiene and longevity for our piercing jewelry.
Certificates are available on our website.

TITAN 6AL-4V-ELI (Grad 23)

Titan eignet sich ideal für den Ersteinsatz und geheilte Piercings, da es der EU-Nickelrichtlinie entspricht, die 2001 in Europa eingeführt wurde. Aufgrund seines nahezu "nickelfreien" Inhalts, ist Titan zu einem der bevorzugten Materialien bei Piercingschmuck geworden. Ti6AL-4V, ASTM F136 ist die Spezifikation für die Legierung, die für chirurgische Implantate verwendet werden soll. Titan ist nur halb so schwer wie Stahl und doppelt so stark.
Unsere Titan Gold PVD Artikel sind mit echtem 18 Karat Gold beschichtet, sicher für die Autoklavierung, was Hygiene und Langlebigkeit für unseren Piercingschmuck gewährleistet.
Zertifikate gibt es auf unserer Webseite.

TITANE 6AL-4V-ELI

Le titane est idéal pour les piercings initiaux ainsi que pour les piercings déjà cicatrisés, car il est conforme à la directive européenne sur le nickel introduit en Europe en 2001. En raison de sa teneur en nickel pratiquement nulle, le titane est devenu l'un des matériaux privilégiés pour le perçage de bijoux. Le titane de type Ti6AL-4V, ASTM F136 est la spécification de l'alliage à utiliser pour les implants chirurgicaux. Le titane ne pèse que la moitié de l'acier et est deux fois plus résistant.
Nos articles en PVD doré au titane sont revêtus d'or véritable 18 carats, sûrs pour l'autoclave, garantissant hygiène et longévité pour nos bijoux de piercing.
Les certificats sont disponibles sur notre site Web.

TITANIO 6AL-4V-ELI

El titanio es ideal tanto para las perforaciones iniciales como para las perforaciones ya curadas, ya que cumple con la Directiva de níquel de la UE que se implanto en Europa en 2001. Debido a su contenido "libre de níquel", el titanio se ha convertido en uno de los materiales preferidos para el uso de las perforaciones iniciales en joyería. El grado Ti6AL-4V, ASTM F136 es la especificación de la aleación que se utilizará para los implantes quirúrgicos. Este titanio pesa la mitad que el acero y es el doble de resistente.
Nuestros artículos de PVD dorado de titanio están recubiertos con oro real de 18 quilates, seguros para autoclave, garantizando higiene y longevidad para nuestra joyería para piercings.
Los certificados están disponibles en nuestra pagina web.

CULTURED FRESHWATER PEARLS
INTERNALLY THREADED

Cultured freshwater pearls get their name from being cultured in freshwater lakes or pond farms, with China and the United States being the main sources. They have the widest range of shapes, sizes, and colours available, and are typically the most affordable.

Slight variation of colour and shape it's a sign of their individuality and naturally occurring.

Their unique shapes and wide range of colors combined with their attractive prices and charming character, have made them a favorite among jewelry designers, shoppers and pearl connoisseurs alike.

TITANIUM NIOBIUM (TI-NB) THREADLESS PINS

DEEP INTERNAL NEW

Titanium Niobium (Ti-6Al-7Nb) ASTM F1295 *is a Titanium alloy containing 6% Aluminium and 7% Niobium. In comparison to Ti-6Al-4V the replacement of Vanadium to Niobium results in even higher corrosion resistance and excellent biocompatibility. Titanium Niobium has its main use in the medical and dental industry to make implants. The alloy shows high compatibility to ingrowth to the human body. Therefore, the application for Piercing Jewelry is a great match.*

STERILIZE ONLY BY AUTO CLAVE

BIOPLAST® is Bio compatible (Certificate available). **BIOPLAST®** is flexible.
BIOPLAST® can be cut to any length and threaded by any metal ball closure.
People getting pierced with **BIOPLAST®** have less swelling and inferctions.
The healing process with **BIOPLAST®** is faster than with other materials. No allergic reaction (no nickel).
BIOPLAST® can be combined with SS316L, Titanium, Silver or Gold.
BIOPLAST® is the best material for initial piercing.

BIOPLAST® ist biokompatibel, d.h. es wird vom körpereigenen Gewebe vollständig toleriert.
BIOPLAST® ist biegsam und passt sich Körperkonturen an. **BIOPLAST®** kann auf jede beliebige Länge gekürzt werden.
Ausserdem kann durch jede Stahl-oder Titankugel durch einfaches Aufschrauben ein Gewinde erzeugt werden.
BIOPLAST® verursacht beim Verheilungsprozess eines Piercings weniger Schwellungen und Entzündungen als Z.B. Titan.
Durch verkürzt sich der Verheilungsprozess im Vergleich zu anderen Materialien.
Allergische Reaktionen auf **BIOPLAST®** sind derzeit unbekannt. **BIOPLAST®** kann autoklaviert werden.
BIOPLAST® kann mit Chirurgenstahl, Titan, Silber oder Gold kombiniert werden.
Derzeit ist **BIOPLAST®** das geeigneteste Material zum Ersteinsatz von Körperschmuck.

BIOPLAST® est bio compatible (certificat disponible sur demande). **BIOPLAST®** est flexible.
BIOPLAST® peut être coupé à n'importe quelle longueur et facilement fileté en vissant une boule de métal.
Les risques d'infection et d'inflammation sont moindres pour les personnes piercées avec **BIOPLAST®**.
BIOPLAST® permet une cicatrisation plus rapide comparé à d'autres matériaux. Aucunes réactions allergiques (ne contient pas de nickel).
BIOPLAST® peut être stérilisé par autoclave.
BIOPLAST® peut être combiné avec de l'acier chirurgical (SS316L), du Titane, de l'Argent ou de l'Or.
BIOPLAST® est le matériau idéal pour un premier piercing.

BIOPLAST® es Bio compatible (Certificado disponible). BIOPLAST es flexible.
BIOPLAST® se puede cortar en cualquier tamano y enroscarcon cualquiera bola de metal.
La gente que usa **BIOPLAST®** tienen menos infecciones inflamaciones y no tiene reacciónse alérgica.
El proceso de curación con **BIOPLAST®** es más rápido que con otros materiales. No hay reacción alérgica (sin níquel).
BIOPLAST® puede ser esterilizado con autoclave.
BIOPLAST® puede ser combina con SS316L, Titanio, Plata u Oro.
BIOPLAST® es el mejor material para la perforación inicial.

PIERCING LAB

PRODUCTS FOR PIERCERS & STUDIOS

SILICONE PIERCING DISCS

The Piercing Disc helps the healing process for fresh piercings, Hypertrophic Scarring and Keloids.
The disc is used between the piercing attachment (ex: balls) and the skin.

PIERCING NEEDLES

NEW

MOSQUITO SR+
THE NEW NEEDLE GENERATION

SR+

SELF-RELEASING CATHETER
+ receiving tube cap
No scissors and no extra tube needed

For Piercing Only!

STERILE EO

PT-MOSQUITO-SR+
SELF-RELEASING CATHETER PIERCING NEEDLES
W. RECEIVING TUBE CAP
(50PCS BOX)

1 Comfort-grip handle

- Significantly better grip .
- The lure lock (small coloured part at the end of the tube) sits firmly in place and can not slide down during the piercing process.
- The handle has a Mosquito design and is made from one piece . Individual parts can no longer come off.

2 Label of blister packaging is completely coloured for better sorting

3 NEW: Modified cap – may be used as a receiving tube!

- The cap is now divisible . This means that both the longer part (with a 45° angle) and the shorter straight part can be used as a receiving tube depending on personal preference and body part.
- This extension will be implemented in production as a standard shortly.

1. With clean hands, submerge the pipette into a clean glass of (lukewarm) water and squeeze to fill up with water.
2. Remove the bag from the seal pack and squeeze the pipette to transfer 3ml of water.
3. Cover the affected area with the wet part of the bag. Place the band-aid on top and peel off the sides to make it stick to your skin.
4. Leave it on overnight or for at least 6-8 hours. Carefully squeeze water under the band-aid using the pipette when it's drying up.

TARIFAS Y PRECIOS

Catálogo 2026: Adjuntamos la tarifa física actualizada correspondiente al catálogo 2026.
Suplementos: Para piezas de catálogos suplementarios, consulte precios en www.abj99.com.
Stock: Productos sin número de página en la tarifa son piezas básicas en stock no catalogadas.
Dudas: Para consultas sobre medidas, materiales o colores no catalogados, contáctenos.
Histórico: Productos de catálogos anteriores mantienen el precio del año de catalogación hasta agotar existencias.

ACCESO A PRECIOS Y FORMATO PROFORMA

Área Privada: Descargue precios en PDF en www.abj99.com/es/area-privada/ con el Código: 227415.
Excel PROFORMA: Formato exclusivo para el catálogo básico 2026 que permite seleccionar medidas/colores e introducir cantidades para el cálculo automático del importe.
Pedidos: Esta hoja facilita el trabajo y reduce errores; incluye exclusivamente referencias del catálogo 2026.
Otros: Referencias fuera del catálogo básico pueden solicitarse por e-mail o en comentarios de la PROFORMA.

CALIDAD, CERTIFICACIONES Y ANIVERSARIO

Certificados: Facilitamos certificados de calidad exclusivamente a nuestros clientes.
Este año celebramos nuestro 26º aniversario en el mundo de la joyería y el piercing.
Para agradecer su confianza, realizaremos promociones especiales durante todo el año, que anunciaremos en nuestro Instagram @amazingbj99.

INFORMACIÓN SOBRE ENVÍOS

- Pedido mínimo: 120,00 € + IVA.
- Pedidos < 120 €: Gastos de envío y reembolso (8,50 €) a cargo del cliente.
- De 120 € a 200 €: Cliente abona solo el envío (mín. 6,50 €; expositores según peso/volumen).
- A partir de 200 €: Amazing Body Jewelry asume todos los gastos de envío y reembolso.

Nota: No se realizan restos de pedidos inferiores a 120 €. Baleares y Canarias: consultar tarifa.

PRICING & PRICE LIST

The updated price list for the 2026 catalogue is now available. Supplementary prices can be found at www.abj99.com. Items without page numbers are non-catalogued basic stock; please contact us for custom size or material inquiries. Previous catalogue items remain available at their original price while stocks last.

PRICE ACCESS & PROFORMA FORMAT

Find news and PDF price downloads in our private area at www.abj99.com/es/area-privada/ (Access Code: 227415), or request them via info@abj99.com.
An Excel PROFORMA tool is also available for the 2026 Basic Catalogue. This tool allows you to select sizes/colors and auto-calculate totals to minimize ordering errors. Items not in the 2026 catalogue should be ordered via email or added to the Proforma comments.

QUALITY, CERTIFICATES AND ANNIVERSARY

We provide quality certificates to customers only.
This year we proudly celebrate our 26th anniversary in the world of jewelry and piercing.
To thank you for your trust, we will be offering special promotions throughout the year, which will be announced on our Instagram account @amazingbj99.

SHIPPING INFORMATION (INTERNATIONAL)

- Minimum order: €200.00.
- International Shipping: UPS or GLS options (Europe), typically 2/3 business days.
- Payment: Bank transfer or pay upon receipt (available in select EU countries).
